MRS. HARRIMAN
ON WAY EAST

Following the departure of Mrs. E. H. Harriman for her eastern home after several weeks at her Island Park, Ida. summer home, a special train bearing a large number of her guests passed through the city en route to Salt Lake yesterday evening.

OGDEN
STATE BANK
CAPITAL & SURPLUS
\$225,000.00HELPFUL
SERVICE

To be of real value a bank must afford its depositors a great deal more than merely a safe depository for their money.

Genuinely helpful service means, in the first place, a thorough understanding of the requirements of the depositors and a constant endeavor to be of service at all times and under all circumstances.

This is the class of service that depositors of this bank receive.

Cut out the above coupon, and present it at this office with the expense amount herein set opposite the style selected (which covers the items of the cost of packing, express, and the cost of the book, and other necessary EXPENSE items), and receive your choice of these books:

PANAMA AND THE CANAL
This beautiful big volume is written by Willis J. Abbot, a writer of international renown, and is the acknowledged standard reference work of the great Canal Zone. It is a splendid large book of almost 500 pages, 9x12 inches in size; printed from new type, large and clear on special paper; bound in tropical red vellum cloth; title stamped in gold, with inlaid color panel; contains more than 600 magnificent illustrations, including beautiful pages reproduced from water color studies in color, that far surpass any work of a similar character. Call and see this beautiful book that would sell for \$4 under usual conditions, but which is presented to our readers for SIX of the above Certificates of consecutive dates, and ONLY the Sent by Mail, Postage Paid, for \$1.59 and 6 Certificates

Panama and the Canal
Regular octavo size; text matter practically the same as the \$4 volume, bound in blue vellum cloth; contains only 100 photographic reproductions, and the color plates are omitted. This book would sell at \$2 under usual conditions, but is presented to our readers for SIX of the above Certificates of consecutive dates and only the Sent by Mail, Postage Paid, for 67 Cents and 6 Certificates

THE MARION HOTEL
POOL ROOM

Containing all new Brunswick-Balke-Collander Co. pool tables. Open now under the management of J. B. Wallace. New tables, good service; coolest place in town. Come and see us.

GRANDSTAND AT
BALL GROUNDS
DESTROYED

Salt Lake, Sept. 6.—Fire last night destroyed the big west grandstand at Lucas field, Eighth South between Main and State streets. The flames did not consume the entire structure, but burned it so that only the skeleton remains. The loss is estimated by President Ben G. Hite of the Salt Lake ball club at \$4000. The stand had a seating capacity of 1200 or 1500 spectators. The burned stand will be torn down, being so badly damaged that no part of it can be rebuilt.

The fire started about 9:30 o'clock last night. Hardy Downing, who was on his way home on a car, noticed the blaze and turned in an alarm from the box at the corner of Eighth South and Main. The firemen soon reached the park and turned on the water. After fighting the flames for half an hour, they were extinguished, and at 11 o'clock the firemen had put out the last smoldering spark. The cause of the fire is a mystery. Some are inclined to the belief that incendiaries applied the match. Some claim it is lent this belief by the fact that some of those who were early on the spot said they detected the smell of oil. Another support of the firebrand theory is the fact that the fire apparently started at several points simultaneously, which, it is argued, would not have been the case had the fire originated at one point only.

Persons living near the park told the police last night that they had seen two men go into the field shortly before the fire and later had seen them running away from it. Investigation by the police also showed that the telephone and electric lines in the vicinity had been cut. Suspicion is directed against two whom the police hope to have in custody within a short time.

Some wag who was on the lot last night suggested that the fire was caused by one of the hot balls promiscuously flung around by the Salt Lake players yesterday.

President Hite and his associates were on the job early today with workmen to make arrangements for handling the big Saturday and Sunday crowds. There is a possibility that a canvas canopy will be raised over a section of the bleachers to shelter those who cannot find accommodations in the remaining south stand.

Anyway, there will be a ball game today and another tomorrow. The diamond is there and so is the sky, which are all the things needed for a ball game.

At an early hour this morning Patrolman Arthur Merrick arrested A. Fredrick, commonly known as "Sharkey," on suspicion of having had some connection with the fire. He was held at the police station without bail. Fredrick denied all knowledge of the fire.

According to President Hite, Fredrick and a pal were ejected from the ball park yesterday afternoon during the game.

BODY OF SUICIDE
FOUND AT FORT

Salt Lake, Sept. 6.—Peculiar circumstances surrounding the suicide of George Groesser, a cook who formerly lived in Elgin, Ill., whose body was found on the parade grounds at Fort Douglas yesterday, will be investigated today by Chief of Police B. F. Grant and Detectives Lyon and Gillespie. A few minutes before the body was discovered Mrs. Groesser, wife of the suicide, and Myrtle McGarvey, a friend, rode through the fort grounds on horseback a short distance from the place where Groesser's body was found. Investigation also disclosed that Mrs. Groesser had frequently called up a private at Fort Douglas and had been on friendly terms with him. According to the detectives Private Roger Thomas is the soldier who was acquainted with Mrs. Groesser, and whose attentions were objected to by the suicide.

These circumstances at first led the police to believe that Groesser might have been murdered, but a more thorough investigation convinced them that the man was a suicide, though the officers are not clear as to the motive. The body was found at 2:20 o'clock yesterday morning by Captain P. Smith as he marched a battalion of troops on to the parade grounds. A bullet had pierced the man's skull, entering at the right temple and passing through the head. The man's right hand clutched tightly a blood-spattered .38 calibre pistol.

The body was identified through correspondence found in the pockets. The letters were from Joseph Groesser, 421 Brook street, Elgin, Ill., father of the suicide. A single nickel was the only coin found on the dead man. The body had evidently lain on the field since the night before. Death undoubtedly had been instantaneous. When Mrs. Groesser was notified that her husband had been found dead she became hysterical with grief. She was taken into custody and told the police a rambling, hysterical story. She said she was formerly Miss Pearl Kruse, daughter of H. J. Kruse of American Fork. She added that she and her parents were estranged. On May 19 last, she said she and Groesser were married in Salt Lake.

CLOUDBURSTS VISIT

MINES OF NEVADA Mining operations all over Nevada during the past few weeks have been very materially handicapped by the series of cloudbursts experienced and the walls of wild rushing waters have done considerable damage, practically state-wide. The source of water for the Tonopah district at Rye Patch was endangered by a cloudburst last Tuesday, and as a precautionary measure the mills of Tonopah were ordered closed for so rest of this week. While this will materially interfere with the production record of the great silver camp, it will provide water for domestic use and save health and possibly lives in the long run. Ely has been visited by two severe cloudbursts, Tonopah has had its

SERVICES ARE
TO BE IN
FRENCH

Sunday evening, 8 o'clock, at the Central Park Presbyterian church, Thirty-first street and Washington avenue, services will be held in the French language. The Rev. David Reccio of Italy, a man highly accredited and one of the leaders in the work, will speak on the work of the Waldensian church.

This meeting will be of special interest to Ogden's sturdy French-Italian citizen, to all students of Waldensian church history, and indeed to all who speak or aspire to understand French.

BOY IS KILLED BY
FATHER'S WAGON

Salt Lake, Sept. 6.—Falling under the wheels of a gravel-loaded wagon, Wallace Rehnitz, 11 years of age, was crushed to death at the excavation for the new administration building of the Mormon church, west of the Lion house, at 2 o'clock yesterday afternoon. His father, S. Rehnitz, 363 Belmont avenue, was driving. He did not see his son fall in an attempt to climb aboard as the start from the pit was made and was aware of it only when he looked back to where the lad lay in a death agony.

The boy's head was found crushed and his right leg was broken. Death followed the accident in but a few minutes and the mutilated body was carried into the L. D. S. university shops, from where it was taken to the undertaking rooms of Joseph William Taylor.

The Rehnitz family moved to Salt Lake recently from Sandy, Wallace had been riding with his father regularly since Mr. Rehnitz had obtained work hauling gravel from the excavation.

PINGREE TOWNSITE
COMPANY IS SUED

Blackfoot, Ida., Sept. 5.—The Pingree Townsite company, a holding and promoting company for the promotion of a townsite, named after John Pingree of Ogden and located about eighteen miles southwest of Blackfoot, on the Aberdeen branch of the O. S. L. railroad, has been sued by Charles B. Titcombe, of Salt Lake City, for damages of \$25,000 and accruing damages at the rate of \$250 per month.

The townsite company was organized about five years ago, largely through the activity of Murray Sullivan, one of the engineers of the Short Line, when it was definitely known that the Aberdeen extension was to become a fact and in anticipation of such extension.

Considerable holdings of land were acquired by a subsidiary company along the proposed right of way and construction of buildings upon the townsite was begun soon after the Short Line began the construction of the Aberdeen line. The hotel building and store are of lava rock and composition and of very attractive architecture. The cost of construction, through mismanagement, was large and the venture has never been a paying proposition.

Mr. Titcombe alleges the Pingree Townsite company entered into a contract to exchange the property in question for Salt Lake City property, but now refuses to complete the transaction. Hence the suit, which Mr. Titcombe is bringing through his attorney, W. A. Lee, formerly of Salt Lake City.

LICENSES IN DANGER.

Provo, Sept. 5.—The Girls' Friendly society of the St. Mary's Episcopal church met Thursday evening and considered the work for the year. The Second Ward M. I. A. will hold an outdoor session on the meeting house grounds Sunday evening. A fine program of songs, music, readings and speeches has been arranged for the occasion. The Rev. W. F. Powell, formerly of Eureka, is occupying the pulpit of the Methodist church temporarily. When a permanent pastor is assigned the Rev. Mr. Powell will go to Oregon.

WATER "LEAK" STOPS

Park City, Sept. 5.—During the session of the city council last night, Councilman McGill told the members that on August 21 he rode past the city reservoir and found less than four feet of water in the large tank, and he promptly investigated and learned that the regular stream of water was coming in as usual, but that there was a drain at some point. A search for the escaping water was made and he found a connection with the main water pipe which, he said, had been made by the Mines Operating company. This connection had been made without the consent of the council, as the company had not informed that body of intention of cutting in on the main pipes, but as soon as it was discovered by the city officers the connection was broken. The matter was discussed at some length by the councilmen last night, and it was decided to send the company a bill for \$15.

The marshal was instructed to have the hose walks repainted, and the cement walks now in bad condition are to be looked after and repaired. The liquor bond of Max Johnson was approved by the city attorney and the council.

The recorder's report showed a deficit of \$5103.04 on September 1, with outstanding warrants to the amount of \$68.95.

The treasurer's report showed a deficit of \$5034.10 and the water department shows a balance of \$1268.02 in cash. The city justice reported thirty-five cases during August, with \$220 imposed in fines, \$165 collected and \$55 permitted. The city sexton reported three deaths, one adult and two children.

BEN. E. RICH
IS NOW DYING

Ben E. Rich, president of the eastern states mission of the Mormon church, is dying, according to a message received in Salt Lake late last night. Mr. Rich has been ill for some time but it was reported that he was recovering and his friends hoped that he would soon be able to leave New York for Salt Lake. The dispatch received last night indicates that all hope for his recovery has been abandoned.

PARDON BOARD WILL
MEET SEPTEMBER 20The following applications will be considered by the pardon board at a meeting September 20:
For Pardon—Thomas Hall and Ad-SERVICES ARE

PRODUCTION OF
METAL IN ALASKA

The United States geological survey has just issued, as an advance chapter from "Mineral Resources of the United States," a report by Alfred H. Brooks on the mine production of precious and semiprecious metals in Alaska in 1912. Metaliferous mining in Alaska, says Mr. Brooks, made important advances last year. Although the output of gold placers was less than in 1911, the installation of large plants, notably of dredges, in many districts is encouraging for the future of this industry. More important was the progress made in lode gold mining, the output of which was greater than in previous years. Copper mining also advanced, partly because several large plants increased their output, partly because a number of small mines were developed on account of the high price of copper.

The development of the coal fields still awaits the establishment of a definite policy in regard to the disposition of the public coal lands. The delay in securing cheap fuel for the territory has now for many years caused a stagnation in many industries. Railway construction and, to a certain extent, railway operation have stopped and many mining enterprises have been hampered if not entirely abandoned on account of the uncertainty as to the fuel problem. Very few Alaskans have any direct interest in coal claims or in mining, but the entire population of the territory is desirous of seeing the coal fields developed, because it is believed that this will bring about advancement in many other industries. Above all, it will encourage the operation and the construction of railways, which are all important to the territory.

The total mine production of gold, silver and copper in Alaska in 1912 was valued at \$22,255,821, against \$20,505,664 in 1911, an increase of \$1,750,157. The value of the gold production of Alaska last year is estimated at \$17,145,951, that of silver at \$316,839. In 1911 the output of gold was valued at \$16,853,256. The copper output of Alaska for 1912 was \$2,550,491 pounds, valued at \$4,823,031, an increase from 1911 of 1,962,613 pounds.

PROVO NEWS.

Provo, Sept. 5.—The Girls' Friendly society of the St. Mary's Episcopal church met Thursday evening and considered the work for the year.

The Second Ward M. I. A. will hold an outdoor session on the meeting house grounds Sunday evening. A fine program of songs, music, readings and speeches has been arranged for the occasion. The Rev. MEET SEPTEMBER 20The following applications will be considered by the pardon board at a meeting September 20:
For Pardon—Thomas Hall and Ad-

am P. Kent, grand larceny; E. B. Johnson, voluntary manslaughter; John Nolan, burglary; Reed Boshard, statutory offense.

For commutation—Dean Foster, forger; George B. Hubbell, felony; James Cutler, selling cocaine, and George L. Barnard, selling morphine. For parole—Thomas Vance, assault with intent to commit murder; S. E. Doman, statutory offense; Willard Thompson, robbery; Spiros Argentos, burglary; Frank M. Scott and Carl W. Scott, arson; J. L. Cochran, forger.

PLANS SPECIAL FALL VACATION

Logan, Sept. 5.—County Superintendent of Schools Larsen gave out his assignment of teachers for the county schools this afternoon. He is trying an innovation in the schools in some districts this year. He has them start now and after running five or six weeks he will permit a vacation of three weeks, so that the help of the schools may be utilized when the beet harvest is on. Most of the schools will not start until two or three weeks have elapsed.

DYING REQUEST OF
MORAN IS GRANTED

Ely, Sept. 5.—The great Eagle motor hearse, famed all over the country from the fact that its driver was arrested and fined in San Jose for exceeding the speed limit, arrived in Ely last night and left today for Salt Lake, via Kearney's ranch. It is in charge of W. A. Peck, with B. F. Mayo as mechanic. The destination is New York and the trip is made to convey the body of Michael Moran, whose dying request was that his body be conveyed by auto to his last resting place in Greenwood cemetery. R. H. Hambley, a prominent undertaker of San Diego, is in charge of the body. The hearse picked up a stranded auto party twenty miles west of Ely and came over two summits with a total load of over 8000 pounds.
